We are almost ready to accept sea turtles in our new animal hospital! There are several items that we need to fully equip the hospital for our first sea turtle patients. Your donations will be used to care for rehabilitating sick and injured sea turtles throughout the year. Please drop off any donated items or funds to the

National Marine Life Center offices from 9am - 5pm Monday - Friday!
For questions, please contact our Animal Care Technician,
Kate Shaffer at KShaffer@NMLC.org, or at (508) 743-9888.

Thank You For Your Help!
